Better payables equals better business.

Easy, easy, easy. IntelAccount™ does it all. We handle the entire A/P process from receipt of invoice to final payment of your vendor. Once you set the rules, all you have to do is review and approve your invoices. We do the rest.

Focus on your business. Not on your bills. Replace your labor intensive, expensive, manual A/P process with IntelAccount's simple to use, automated, payables management system. Refocus your management and staff on profit generating activities. We'll do all the manual labor. You make all the important decisions.

You're in control. IntelAccount gives you complete control over the entire process. You decide who has access to your system. You set the rules. Your system is secure and available 24/7 from anywhere in the world. You'll insure complete adherence to your business rules. You'll even reduce fraud exposure and the potential for check theft.

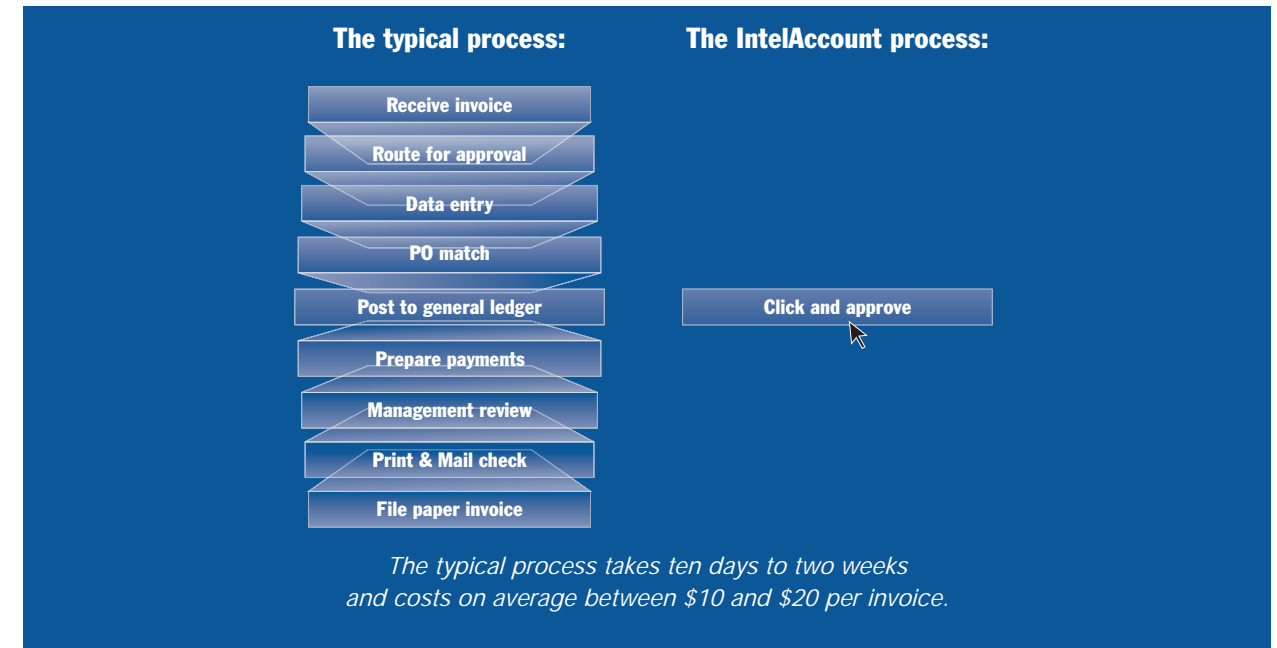

All A/P documents become digital. Imagine no more lost documents or file cabinets full of payables paperwork. Since we digitally scan all invoices, expense reports and supporting documents, any time you need anything, it's accessible right from your desktop. You'll never waste another minute trying to find an invoice.

Improve your cash flow. IntelAccount guarantees that all payables will be available to you within 4 business hours of our receipt. This gives you the ability to maximize vendor discounts, improve vendor relations and manage your cash flow.

The bottom line. At IntelAccount, we've made the most efficient, world-class accounts payable processes available to everyone. You can save up to 70% compared to your current accounts payable process. You get a better A/P system and a better run business. It's simple, it's cost effective and it's beneficial.
